

# 6<sup>th</sup> Global Webinar on Diabetes and Endocrinology

Theme: Bridging Research and Clinical Practice in Diabetes and Endocrinology

**Date**

Nov 27- 28, 2026

**Time Zone**

GMT +7 (Bangkok)

**SCAN ME**

# Welcome

2

Scientex conferences host a plethora of events in various fields, including Medicine, Pharma, Health Science, Life Science, Engineering, and Technology. We organize all our events with the utmost care and diligence, providing top-notch facilities and infrastructure for smooth and successful knowledge transfer among attendees. Our goal is to solve modern scientific problems for the betterment of our lives.

Scientex conferences focus on achieving greatness by offering excellent opportunities for professionals to explore the scientific research community and introduce potential breakthroughs. We provide a fitting platform for eminent speakers, innovators, inventors, industry professionals, scientists, academicians, established authors, scientific editors, medical physicians, medical service providers, nursing professionals, research associates, analysts, and students to exchange ideas and find solutions to major global challenges.

Our conferences are highly successful, featuring high-quality interactive technical sessions with recent research findings and futuristic trends. We focus on providing workshops and symposiums through well-established industrial and academic tie-ups with various professional bodies, organizations, and top-rated universities worldwide.

## About Webinar

The **6<sup>th</sup> Global Webinar on Diabetes and Endocrinology**, scheduled for **November 27-28, 2026** (GMT+7), brings together leading researchers, clinicians, healthcare professionals, and industry experts from around the world. This international webinar serves as a dynamic platform to exchange scientific knowledge, clinical experiences, and innovative research findings in the fields of diabetes and endocrinology.

Centered on the theme **“Bridging Research and Clinical Practice in Diabetes and Endocrinology,”** the webinar will highlight recent advances in disease mechanisms, diagnostic approaches, therapeutic strategies, and translational research. Participants will gain insights into evidence-based clinical practices, emerging technologies, and future directions that aim to improve patient care and outcomes.

Through keynote lectures, oral presentations, and interactive discussions, the webinar encourages global collaboration and knowledge sharing, supporting the integration of cutting-edge research into real-world medical practice... [\(click here for more\)](#)
